

DR37

HOME KIT 72 PIECE

PRODUCT DESCRIPTION

In keeping with our range of pre-designed tool kits, this kit has adopted the tool control aspect. The high quality tools are individually embedded into oil resistant foam. These foams have red material backing which highlights a missing tool immediately, whilst also ensuring that tools are kept organised and free from the risk of damage. Supplied in a high quality nylon bag with a comfortable grip handle with a kneeling pad.

TOOLS

72
